

■ THE REAL PROBLEM

It's not your ADHD. It's that every solution assumes you need to change.

More discipline. Better focus. Stricter routines. Here's the truth: if you could simply "try harder," you would.

The real problem is that no tool, app, or coaching program starts by understanding how YOUR ADHD shows up — in your day, your habits, and how you make (or lose) money. That step doesn't exist anywhere else.

Task paralysis

Time blindness

Decision fatigue

Context switching

Inconsistent output

Abandoned projects

■ WHAT HAS TO COME FIRST

Know how YOUR ADHD shows up. Then — and only then — build your system.

Most systems are built on averages. TABS is built on you. Before any framework is set, we go deep on what drains you, what fuels you, and how ADHD is specifically impacting your work and revenue. This is what the assessment unlocks.

Know what drains you

Identify the exact patterns killing your focus, revenue, and momentum — before they do it again.

Know what fuels you

Understand what makes you exceptional — and protect those conditions intentionally.

Build to fit exactly

Not a template. A structure built from how you actually think, work, and create.

■ WHAT'S ALREADY OUT THERE — AND WHY IT'S NOT ENOUGH

Every category misses the self-knowledge step.

Apps & Tools

Saner.AI · Focus Bear · Tiimo

Digital-only. Built for ADHD in general — not your specific brain. No human layer, no personalization.

Coaching Programs

ADHD Biz Compass · AEX · Flow State

Human-led and valuable — but when coaching ends, there's no working system left behind that's truly yours.

Generic Productivity

Notion · ClickUp · Asana

Built for neurotypical brains. Require heavy setup. Collapse when your energy fluctuates. Not built for how you work.

Life with Tabs™

The TABS System

Starts with self-knowledge. Builds your system FROM you. Stays with you. Grows as you learn your own brain.

■ THE TABS SYSTEM — BUILT FROM YOU, NOT APPLIED TO YOU

T — Time

Containers — not calendars. Fixed focus windows built around your energy patterns, not against them.

A — Anchors

Rituals that ground you. Before, during, and after work — so you stop white-knuckling every transition.

B — Brain Dump

Get it out of your head. Everything. So nothing lives rent-free and steals focus from what actually matters.

S — Steps

Micro-tasks that break paralysis. Small enough to start. Structured enough to finish. Built for momentum, not guilt.

■ WHAT MAKES THIS DIFFERENT

■ It knows you.

Built from a deep look at how YOUR ADHD shows up — not a generic ADHD profile. Your TABS system is personal. Your patterns, your brain, your business.

■ It grows with you.

As you understand yourself more, the system evolves. It doesn't expire.

■ It's built for you.

Your TABS system is personal. Your patterns, your brain, your business.

■ Zero shame.

No neurotypical benchmarks to fail. Just a system that actually fits who you are.
